Aims and Scope

IJERPH (ISSN 1660-4601) is a peer-reviewed, transdisciplinary journal focused on publishing content related to health promotion and disease prevention. *IJERPH* aims to bring together all scientific communities from various disciplines that address health promotion, wellbeing and improvement of quality of life. We strive to broaden the perception of Public Health to encompass all aspects of biological, social, environmental, and behavioral determinants of health, shifting the focus beyond traditional boundaries.

The list of the new consolidated sections is as follows:

- Global Health
- Healthcare Sciences
- Behavioral and Mental Health
- Infectious Diseases, Chronic Diseases, and Disease Prevention
- Exercise and Health-Related Quality of Life
- Environmental Health
- Environmental Sciences

All studies submitted to *IJERPH* are expected to highlight how the results have a direct impact on health promotion. Authors are encouraged to publish their experimental and theoretical results in as much detail as possible. The full experimental details must be provided so that the results can be reproduced. *IJERPH* welcomes original articles, critical reviews, and short communications.
